In the Specification

ABSTRACT

A method and apparatus for implementing network management policies is provided. A communication path is determined that passes through a domain of a network. The communication path characterizes the first domain as a node, but does not lose information. A management policy is then implemented using the communication path. Another aspect of the invention provides a method implementing a management policy using topology reduction. A network is abstracted into domains, and each domain may be cloudified if that domain is determined to have a cloudification characteristic. Domains that are cloudified are subsequently represented as having reduced topology and internal connectivity, but this representation does not incur information loss when management policies are implemented using the cloudified domains. In other aspects, the invention provides a computer-readable medium and system configured to carry out the foregoing.

Allowable Subject Matter

3. Claims 5-8, 10-17, 22, 23 and 34-36 are allowed.

Reason for allowance

4. This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104(e). In this case, the substance of applicant's remarks filed on 8/1/2005 with respect to the added claim limitation point out the reason claims are patentable over the prior art of record. Thus, the reason for allowance is in all probability evident from the record and no statement for examiner's reason for allowance is necessary (see MPEP 13202.14).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khanh Dinh whose telephone number is (571) 272-3936. The examiner can normally be reached on Monday through Friday from 8:00 A.m. to 5:00 P.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zarni Maung, can be reached on (571) 272-3939. The fax phone number for this group is (571) 273-8300.
